La Lampä

katalog 2023

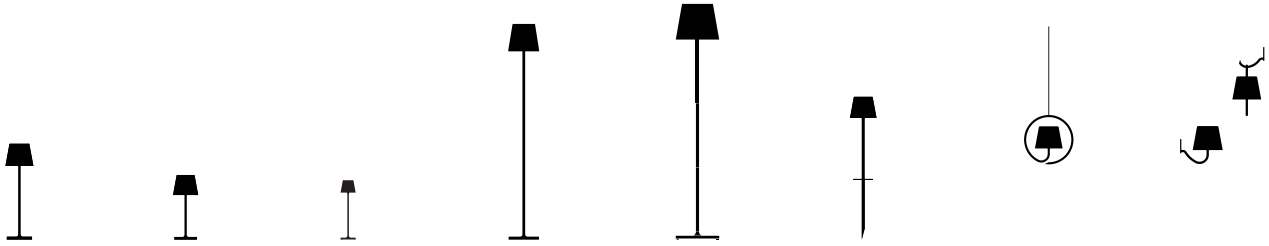

Hvad nu, hvis en lampe kunne lyse det helt uventede op?
What if a lamp could light up the unexpected?

Vi forslår en en tur ud i naturen.
Med sin usplerede skønhed, er det naturen der er hovedpersonen.
La Lampa bringer en kontrast til disse smukke landskaber.
Her er lys en tro følgesvend, som lader dig genfinde farverne hvor solnedgangen gradvist fosvinder i mørket,

What we propose
is a short journey into nature.
With its unspoilt beauty, nature is the protagonist.
Lamps bring a contrast to these
welcoming and receptive landscapes.
They offer unexpected and unusual places,
where light, a faithful companion,
lets you rediscover colours and profiles
that sunsets gradually fade away
swallowed by darkness.

Bordlampe pro
Table lamp pro

Poldina pro er en opladelig batteridrevet LED bordlampe. Den leveres med trådløs ladestation. Lampen kan lysdæmpes med finger touch på toppen af lampen.
Lampens LED farve temperatur kan justeres mellem 2700 - 3000 K (Dynamisk hvid.)

Partnerskabet med en veletableret fabrik i Civita Castellana - en landsby nær Rom, hvor keramikkunsten er blevet praktiseret siden det 10. århundrede f.Kr. - gør det muligt at stole på den eksklusive fremstilling af produkter, som er håndekoreret efter Civita Castellana eget design.

Poldina Lido is a battery-operated, portable and rechargeable table lamp, featuring a ceramic lampshade cover, made and hand-painted in Italy.

The partnership with a long-established factory in Civita Castellana - a village near Rome, where the art of ceramics has been practised since the 10th century BC - allows Zafferano to rely on the exclusive manufacture of made in Italy products, which are hand-decorated according to the company's own design.

poldina x

Bordlampe Radiserne
Table lamp pro

Poldina x Peanuts er en bordlampe i LED og genopladelig, personliggjort med de skabte figurer af Charles Schulz.

Peanuts, striben som er skabt af Charles Schulz og udgivet i1950èrne, er nok en af de mest populære tegneserier i verden.
Poetisk, øm og ironisk, hans karakterer er klassiske og tidløse figurer, hvor enhver læser kan genkende sig selv.

Poldina x Peanuts is a battery-operated portable and rechargeable table lamp, customized with characters created
by Charles Schulz.

Peanuts, created by Charles Schulz and first published in 1950, is one of the
best-known comic strips in the world.
Each member of the Peanuts gang is a classic, timeless figure with whom every reader can identify.

Olivia

Bordlampe
Table lamp pro

Olivia er en opladelig batteridrevet LED bordlampe. Den leveres med trådløs ladestation. Lampen kan lysdæmpes med finger touch på toppen af lampen. Lampen er med memery funktion, så lampen husker den indstillede lysintentitet, efter sidste tænding.
Lampens LED farve temperatur kan justeres mellem 2700 - 3000 K (Dynamisk hvid.)

Olivia is a battery-operated portable and rechargeable table lamp. It is equipped with contact charging base, dimmer touch control and dimmer memory function which adjusts the light intensity and memorises the dimmer steps; consequently, every time it is switched on, the light intensity will correspond to that previously set. The lamp is equipped also with a light colour temperature selection function, 2700K or 3000K (dynamic white).

Swap

Design Studio Kairos and Federico de Majo

Bordlampe
Table lamp pro

Dragonfly er næsten usynlig, måske er det en ildfluge. Du kan hurtig og nemt omdanne det raffienerede lys, til en smul lampe med glasskærm.

Dragonfly you move
Almost invisible
And become a firefly
Watching over us with a small light
Shimmering with glass and refined veils
You transform your essence for us
And remain the only sweet companion.

Swap er en batteridrevet bærbar og genopladelig bordlampe. Den er udstyret med kontaktopladningsbase og lysdæmper touch kontrol. Med en lille hurtig tilpasning, monteres en lille magnet på toppen, hvorpå der kan påsættes en lampeskærm, af glas eller "tørklæde".

Swap is a battery-operated portable and rechargeable table lamp. It is equipped with contact charging base and dimmer touch control. The model LD1020 must be customized choosing from a range of glass lampshades or a fabric “handkerchief”, which are attached to the top of the lamp with a magnet.

Home

Det store lysenede hus, lyser op på græsplænen, og i skygge af lindtræer, eller i solnedgangen over bjergne.

I'd like a bright house
As large and as small
As I imagine it every day
With many or a few friends
True presences
I imagine a house by the sea and on the sand
On the lawn, in the shade of a linden tree
And in the mountains after sunset
That reveals our many steps.

Sister Light mini

Bord lampe mini
Table lamp

Sister Light er en opladelig batteridrevet LED bordlampe. Den leveres med trådløs ladestation.
Lampen kan lysdæmpes med finger touch på toppen af lampen.
Lampens LED farve temperatur kan justeres mellem 2700 - 3350 - 4000 K (Dynamisk hvid.)

Lampeskærmen med lyskilde og styring, er fastgjort til stilken med en magnet.
Lampeskærmene er nem ta tage af, hvis lampefoden skulle være fastgjort til bordplade.

Sister Light mini is a battery-operated portable and rechargeable table lamp. It is equipped with an electronic control system monitors the remaining autonomy and ensures constant luminous flux until the battery runs out. A customisable multifunctional touch control menu allows you to adjust the light color temperature to 2700-3350-4000K (dynamic white) and to set or exclude the 4-step dimmer function.
The top of the lamp, fixed to the stem, can be converted to magnetic fixing and detached to become an emergency light. The base of the lamp is designed to be mechanically fixed to a table.

Genopladelige batterier
Rechargeable batteries

Batterier levetid er omkring 450 opladninger. Sørg altid for, at oplade med korrekt oplader og strømstyrke. Oplad altid lampen, når der er 10% tilbage i batteriet. Har lampen været ude af drift i længer tid, lad lampen oplade, og lad den blive stående på ladefoden efter endt opladning, ca. 6 timer. Udsættes lampen for høje eller lave temperaturer, afvent stue temperatur før ladning. Genoplader lampe på kort tid, er det tid for et batteriskifte. Garanti på batteri, gælder udenlukkende ved batteri fabrikationsfejl, før brug. Batterier kan købes som tilbehør, og isættes lampen iht. La Lampas vejledninger.

All rechargeable batteries are subject to wear when used.
The life of batteries, which can generally be recharged 450 times, may be reduced by certain factors: 1 incorrect recharging mode (the lamp must be recharged when it is flat: about 10% of its remaining autonomy); 2 when left unused for a long time; 3 when left for a long time on a live recharging base even if the lamp is recharged; 4 when non-original accessories are used for recharging;
5when the product is exposed to very high or very low temperatures.
When the lamps no longer recharge or their autonomy after recharging is very short, the batteries must be replaced. Spare parts for Zafferano rechargeable lamps can be found in the catalogue and identified by a special code.
The warranty for batteries is only valid for manufacturing defects, which may occur after initial use.

CE

Erklærer, at produktet opfylder EU-standarder for sundhed, sikkerhed og miljøbeskyttelse.
Declares that the product meets EU standards for health, safety, and environmental protection.

CLASS II

Lampe og ladestation er med dobbelt isolering, hvilket betyder at der ikke er behov for jordledning.
Light fitting equipped with double isolation and/or isolation reinforced in every part and without earthing device.

CLASS III

Lampe og ladestation er baseret på lavvolt, hvor der ikke er højre spændinger.
Light fitting based on a very low safety voltage power supply, in which no tensions higher than the same are produced.

IP

IP BESKYTTELSGRAD
IP20 er ikke beskyttet mod væsker.
IP54: beskyttelse mod støv og mindre vandsprøjt.
IP65: beskyttet meget imod støv og vandstråler.
IP20: protected from the penetration of solid objects greater than 12 mm and non protected from liquids.
IP54: protected from dust and splashing water.
IP65: highly protected from dust and water jets.

LYSDÆMPER

Lampen kan justeres i lysstyrke, med dæmpe funktion, eller i faste styrker.
Indicates that the light intensity of the lamp can be adjusted.

INDENDØRS

Lampen kan primært kun bruges indendørs
Identifies a product with electrical equipment designed primarily for indoor use.

UDENDØRS

Lampen er designet til at kunne bruges indendør eller udendørs.
Identifies a product with electrical equipment designed both for indoor and outdoor use.
